"But as in the days of Noah.."  
... "the earth is filled with violence.."

The evil acts of mankind continues to reach new highs, or actually lows. A few weeks ago, in Los Vegas, it was the largest mass killing of humanity in a public arena. Now it's the deadliest mass shooting and death in modern Texas history, and the greatest related massacre in modern US history.

It seems like the authorities, news media, and political figures always give the reason of being "deranged", or "mental," or perhaps the perpetrator was an emotional misfit. Why then do they always have the presence of mind to carry out their wicked deed with the utmost precision? They also have sense enough to try to protect themselves by fleeing the scene of their crime, and are also intelligent enough with the skill of weapons and firearms use. Also, have you noticed that in all of these cases there have been tell-tale signs before the big event, but not important enough to inform the authorities.

In the case of Devin Patrick Kelley, the sub-human killer of church people in Sutherland Springs, Texas, according to media outlets, was an avowed atheist, who hated church people and been threatening his mother-in-law who just happened to attend the First Baptist Church there, and just happened to send a text message to her as late as that fateful, last Sunday morning. When the sub-human Kelley, went into that church, he made a conscious choice to dress in his body armor, pick up his weapon and ammo, and drive to the church during regular service times. There, he made the choice to aim his weapon and take the life of a little 18-month old baby, a pregnant woman, a 77-year old woman and the pastor's 14 year old daughter, and 22 other innocent people.

Where does the problem lie? According to apostle Paul, it's the spirit who is in man. (1Cor. 2:11) "But those things which proceed out of the mouth come from the heart;...evil thoughts, murders, adulteries, fornications, thefts, false witness, blasphemies. Man has a "heart" problem, and the only cure is to receive a "New Heart" by receiving Christ as Savior.

## *We Cannot Do Without Our Missionaries*

**Gary & Janet Tomberlin**  
**Missionaries to Brazil for 50 years**

Dear friends in Christ,

We are so thankful for all His blessings. The months of September and October have been fruitful, busy months. The most exciting events were two home Bible studies with people who are tired of "cold, traditional, un-responding images," which never have and never will give them light or life. What a blessing and joy to teach them about a living God, Who He is, and what He had done. Their questions and curiosity show very well that they know nothing about the Living God of the Bible. What a blessing to give these families Water from the Living Word, after they have had a life of devotion to an image which does not respond to any of their questions.

Over these last few years we have mentioned some things about our neighbor, Donald Murden, a British scientist and electrical engineer who has been very successful in life. He declared to me years ago that ne was an agnostic, and an evolutionist, and wanted to argue with me about who was right. It has taken years of walking and talking together, as well as his reaching 80 years of age, but he now says he believes the Bible and loves to talk about the miracles of how God has brought everything in this world together in such a perfect way. Now, it is a joy to talk about "How the pyramids were built," the giants in the Old Testament, and "the intelligence of Adam and the early people who lived on the earth." What a joy to see God's hand at work in some of these detailed ways, to show men and women the light and bring them to believing faith. Praise God's holy name.

Thanks for your love, prayers and support. Your faithfulness is reaping results. Souls are being saved and churches are being built.
